Quarri's Partner Program Growth Continues With New Partners in Eastern Europe

Partner Program Builds Momentum; Adds Three IT Security Experts Across Poland, Estonia and Romania

Austin, TX—May 13, 2014—[Quarri™ Technologies](#), a leading web information security software company that empowers organizations to keep their sensitive data secure, today announced continued momentum behind the company's partner program with the addition of three new Eastern European channel partners. Quarri's partner program provides its partners with a wider range of security solutions by adding [Quarri Perimeter Shield™](#), [Quarri Data Safe™](#) and [Quarri Armored Browser™](#) to their offerings. The program also strengthens Quarri's ability to expand into already established regions as well as new geographies.

Quarri's partner program continues to add partners in Eastern Europe with the addition of [Provision Enterprise Technology Solutions](#), a Romanian distributor, [Orion Instruments Polska](#) in Poland and [Telegrupp](#) an Estonian reseller. Additionally, Quarri recently [signed three new partners in the UK](#) region which included Millennium Software in Ireland, WBU in England and ISS Limited in England.

"We continue to see a high level of activity in the European IT security markets," said Carter McCrary, executive vice president of business development at Quarri. "We are pleased to be able to add our family of Quarri web security solutions to the offering from this broad range of partners. Customers are demanding more robust security solutions and these new relationships allow these partners to include our products as part of their services."

Quarri's internet security products: Quarri Perimeter Shield, Quarri Data Safe and the new Quarri Armored Browser product offer 360 degree browser protection. Unsecured browsers are the greatest threat to enterprises in regards to data security. The suite of products protects data from being stolen from infected endpoints with active malicious code, compromised web sites from infecting endpoints and malicious or careless insiders from replicating sensitive information.

Companies interested in becoming a Quarri partner can visit <https://www.quarri.com/partners>.

About Quarri Technologies

Quarri Technologies, Inc. is a leading provider of on demand web information security solutions. The company's products defend against both external and internal attacks and prevent unauthorized use and replication of confidential data by controlling both malicious and careless end-user behavior. Quarri's products, including their mobile products, allow users to remain productive and have a seamless online experience, while also enabling organizational compliance with industry standards and government

mandates. Quarri is a privately held, investor-backed corporation based in Austin, Texas, with clients throughout North America, Europe and the Middle East. For further information, visit www.quarri.com.
